

DATA SHEET

Adapter DEC NET-DB25

Adapter for connecting DEC NET to an EEG amplifier with DB-25F connector.

REF

006-3-008

INTENDED USE

For connecting the electrode cap DEC NET to the EEG amplifier.

SET

- Adapter DEC NET-DB25.

DESCRIPTION

Adapter DEC NET-DB25 is designed to connect a DEC NET to an EEG amplifier with a DB-25F common connector or an amplifier with a different type of connector through a special adapter.

SPECIFICATION

Connector 1 type (to cap)	special connector for DEC NET
Connector 2 type (to amplifier)	DB-25M
Adapter / Extension length	1.5 m
Net weight	60 g (005-3-008)
Gross weight	70 g (005-3-008)

PIN LAYOUTS OF COMMON CONNECTOR

DB-25 connector. Manufacturer's code 23E-02M23.

The availability of other possible schemes should be clarified with the manufacturer.
